

# PROJECT WARN

## Ponca City Hazard Mitigation Project

Paula Cain, Ponca City Emergency Management

**Mitigation:** Those activities designed to alleviate the effects of a major disaster or emergency or long-term activities to minimize the potentially adverse effects of future disaster in affected areas.

Why would people stand in line for hours in the cold & snow?

To buy a weather radio!

Using mitigation grant funding, the City of Ponca City purchased 1039 weather radios. After installing batteries and programming the radios, they were offered for sale to the residents.

Weather Radios should be a part of your warning system. Early warning saves lives!
